PREKEME PAUL PRE-GEE

SENIOR DATA ANALYTICS ENGINEER

Results-driven Senior Analytics Engineer with a strong foundation in financial planning and reporting, now specializing in building scalable data pipelines, automating ETL processes, and enabling self-service BI and insights for business-critical decision-making in the insurance & financial sector.

WORK EXPERIENCE

Leadway Assurance Company Limited *Jan 2025 - Present*
Senior Data Analytics Engineer

- Design, develop, and maintain end-to-end big data pipelines that are optimized, scalable, and capable of processing large volumes of data in real-time and batch modes
- Collaborate closely with cross-functional stakeholders to gather requirements and deliver high-quality data solutions that align with business goals
- Implement data transformation and integration processes using modern big data frameworks and cloud platforms
- Build and maintain data models, data warehouses, and schema designs to support analytics and reporting needs
- Ensure data quality, reliability, and performance by implementing robust testing, monitoring, and alerting practices
- Contribute to architecture decisions for distributed data systems and help optimize performance for high-load environments
- Ensure compliance with data security and governance standards

Leadway Assurance Company Limited *April 2022 - Dec 2024*
Lead, Financial Planning & Reporting Analyst

- Led annual budgeting and ongoing forecasting (monthly, quarterly, yearly) in collaboration with cross-functional and regional teams, ensuring alignment with corporate objectives
- Designed, implemented, and maintained automated executive dashboards, delivering actionable insights through analysis of large datasets and advanced BI visualizations
- Prepared comprehensive CFO and Board packs, including variance analyses, scenario modelling, and strategic recommendations to support executive decision-making
- Developed and managed financial models, tools, and systems to enhance budgeting, forecasting, and strategic planning accuracy
- Delivered ad-hoc financial and non-financial analysis, peer benchmarking, and performance tracking to inform data-driven business strategies
- Established and monitored enterprise-wide KPIs to track performance against strategic and financial goals, delivering regular, actionable performance reports to senior leadership
- Partnered with finance, operations, and regional stakeholders to align departmental plans and reporting with corporate strategic objectives
- Identified performance trends, opportunities, and improvement areas through in-depth analysis of organizational and financial metrics, informing strategic decision-making

Leadway Assurance Company Limited *Aug 2018 - Mar 2022*
Payment Analyst

- Managed daily cash flow reporting, payment processing, and bank reconciliations across multiple currencies
- Oversaw payment vouchers, general ledger postings, and adjustment journals, ensuring accuracy and compliance
- Maintained banking relationships, resolved payment issues, and implemented process improvements
- Provided accounting support to co-insurance, reinsurance, and underwriting teams

Leadway Assurance Company Limited *Jan 2014 - July 2018*
Financial Analyst

- Maintained accurate payment records per bank and ensured proper documentation of transactions
- Reduced reconciliation variances by implementing effective monthly bank and cash book reconciliation processes
- Enhanced daily collections and reporting through improved tracking and control techniques
- Verified and confirmed inflows and outflows, performed ledger proofing, and issued receipts
- Managed banking operations, including handling bank payables and maintaining strong bank relationships
